

1-

3 citations, APA formatted for your paper (you will have done this in Monday's class and this will help for the paper that is due the following Monday

APA Citation

Beasley, M.(2012). The impact of stereotype threat on the attrition of women and minorities from science, math and engineering majors. 15(4), 427-448. Retrieved from CCSU database.

Yeager, D.(2019).A national experiment reveals where a growth mindset improves achievement. 573(7774), 364-369. Retrieved from NCBI database.

Higson, D. A. (Actor). Higson, D. (Narrator). (2015, November 29). *Computational Thinking: What is it? How* [Online video]. Retrieved from <https://www.youtube.com/watch?v=AkzdvKhbWLQ>

2-

A short reflection in a webpage (via <p> paragraphs in a page, for example) on library resources & support of research in the internet age - what's still useful today? If you got anything new from Monday's class with Joy Hansen, do not forget to include this.

I have found that the library website was really helpful because it makes it easier to find what you are looking for even if it's in a different university. This could help you a lot when you're doing research and writing papers. The Internet has completely changed over the years. Nowadays, almost all of our work relies on the use of the internet and computers. That is because the technology has been improving every day for the better and keeps on developing and becoming a huge part of our daily lives. Lastly, one useful thing that I found interesting and helpful from Joy Hansen was the APA example sheet she gave. It was really clear to follow which helped a lot with the APA citation.

3-

A "description list" with the 4 aspects of computational thinking listed & briefly summarized (see:

1-

Single term, multiple descriptions

A free, open source, cross-platform, graphical web browser developed by the Mozilla Corporation and hundreds of volunteers.

The Red Panda also known as the Lesser Panda, Wah, Bear Cat or Firefox, is a mostly herbivorous mammal, slightly larger than a domestic cat (60 cm long).

2-

Single term and description

A free, open source, cross-platform, graphical web browser developed by the Mozilla Corporation and hundreds of volunteers.

3-

Multiple terms, single description

A free, open source, cross-platform, graphical web browser developed by the Mozilla Corporation and hundreds of volunteers.

4- Metadata

Description lists are useful for displaying metadata as a list of key-value pairs.

Begin the Javascript Intro & write 3 quiz questions from that section of reading

1- What Javascript

2- Describe the difference between "Let" and "Var"

3- The variables name should include?
